**DUALMOUNT DESIGN:** Choose between Undermount installation, for a seamless transition from sink to countertop, or overmount installation, with the sink borders over the countertop.

# FEATURES

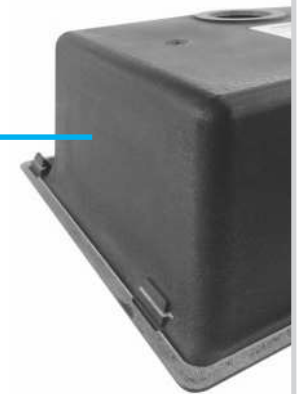

## DEEP

The deep sink design makes it easy to use it without much water splash and offers more space for dirty dishes without polluting the look.

## NATURALLY SILENT

Composed of 80% quartz and 20% acrylic, these sinks are naturally silent. Acrylic acts as a natural acoustic insulation material, absorbs vibration and minimizes noise, eliminating the need for rubber blankets to reduce noise.

## EASY DRAIN

The slightly tilted bottom allows for easy drainage by avoiding standing water inside the sink and its optimized angle prevents glass objects from falling when placed inside it. Hole (4-1 / 2 ") makes it possible to use a food grinder.
